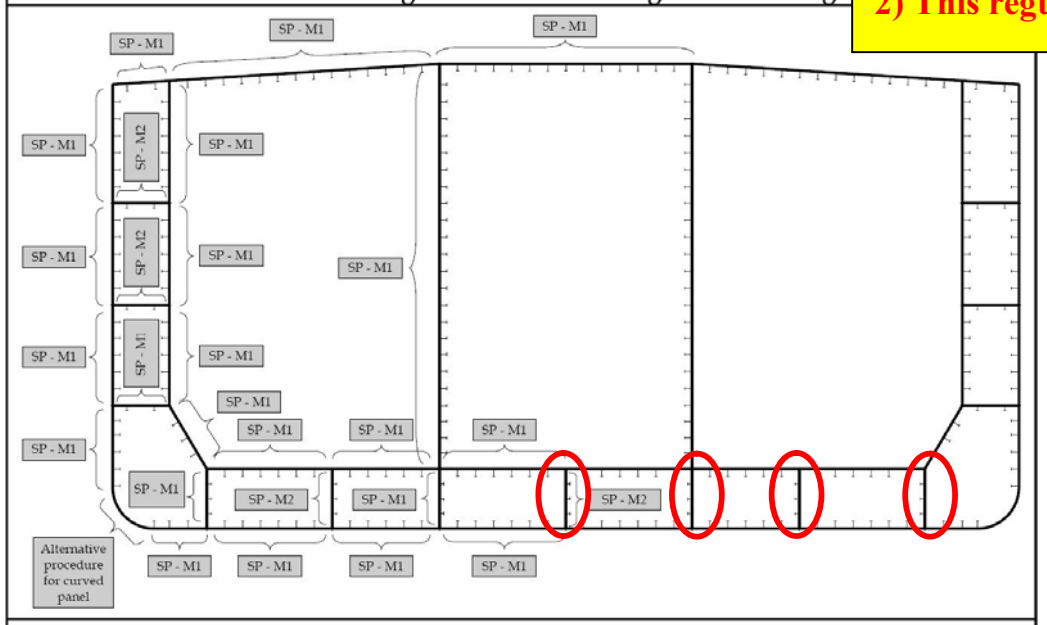
KC#940

# DB GIRDER

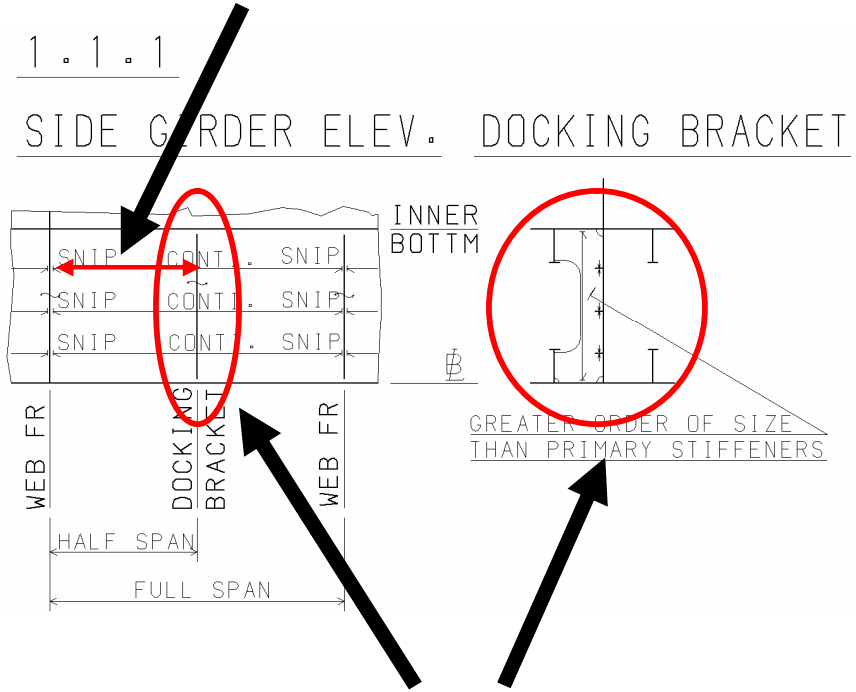
**Figure D.5.1**
**Advanced Buckling Assessment for longitudinal strengt**



Notes

1. SP – M1 denotes stiffened panel – buckling strength assessed using Method 1
2. SP – M2 denotes stiffened panel – buckling strength assessed using Method 2

**2) This regular stiffener is to be considered as 'Sniped"? or 'Continuous' ?**



**1) Docking bracket is 'Secondary stiffener' ? or 'Primary supporting member' ?**
