MSC.1/Circ.1193

**GUIDANCE ON VOLUNTARY SELF-ASSESSMENT  
BY ADMINISTRATIONS AND FOR SHIP SECURITY**

1 The Maritime Safety Committee (the Committee), at its eighty-first session (10 to 19 May 2006), developed Guidance on voluntary self-assessment by Administrations and for ship security in an effort to assist Administrations in the implementation of, and the maintenance of compliance with, the requirements of SOLAS chapter XI-2 and the ISPS Code.

2 The methodologies set out in the annex are designed solely for use by Administrations and by ships in conducting internal voluntary self-assessments.

3 The Committee agreed that the Voluntary self-assessment tool for ship security is not a document which can be requested or required to be produced during the exercise of Control pursuant to the provisions of SOLAS regulation I/19 or of Control and compliance measures pursuant to the provisions of SOLAS regulation XI-2/9. In addition, the Committee agreed that those duly authorized by SOLAS Contracting Governments to exercise Control or Control and compliance measures are not vested with any authority to request or require the production from any ship of the Voluntary self-assessment tool for ship security.

4 Administrations are invited to bring the attached Guidance to the attention of owners and Companies operating ships entitled to fly their flag and of ship security officers.

5 Administrations, international organizations and non-governmental organizations with consultative status are also invited to bring to the attention of the Committee, at the earliest opportunity, the results of the experience gained from the use of the Guidance for consideration of action to be taken.

**ANNEX****GUIDANCE ON VOLUNTARY SELF-ASSESSMENT  
BY ADMINISTRATIONS AND FOR SHIP SECURITY**

1 SOLAS chapter XI-2 and the ISPS Code have, *inter alia*, placed responsibilities on Administrations and Companies for ship security. The provisions entered into force on 1 July 2004 and the appendices to this document provide guidance on:

- .1 a method of self-assessing the effectiveness with which an Administration fulfilled, and continues to fulfil, its obligations in respect of ship security, and
- .2 a tool to allow Companies to self-assess the continuing effectiveness of their ship security plans and the implementation of the relevant security measures in such plans.

2 Self-assessment by an Administration can be undertaken within Government, who could also appoint experts to assist them in the process. Similarly, Company and shipboard personnel can use the self-assessment tool with the support of experts, if appropriate.

3 Anyone undertaking the self-assessment should, at least, have knowledge of:

- .1 the requirements of SOLAS chapter XI-2 and the ISPS Code, including the related guidance developed by the Organization;
- .2 general security principles; and
- .3 the operation of ships.

4 The processes and the completed self-assessments should be protected from unauthorized access or disclosure.

5 The effective implementation of ship security measures is a continuing responsibility. It is suggested that Administrations self-assess their processes post-implementation and thereafter at least on a five yearly basis and that ships self-assess annually.

### VOLUNTARY SELF-ASSESSMENT TOOL FOR SHIP SECURITY

*This Voluntary self-assessment tool for ship security (Voluntary self-assessment tool) can be used to examine the status of implementation SOLAS chapter XI-2 and the ISPS Code on ships.*

*This Voluntary self-assessment tool will help to identify any aspects of SOLAS chapter XI-2 and the ISPS Code that the ship security officer (SSO), company security officer (CSO) or Administration can address to enhance the SOLAS chapter XI-2 and ISPS Code implementation process.*

*SOLAS regulations XI-2/4, XI-2/5 and XI-2/6 and ISPS Code, section A/7.2 establish mandatory requirements for the ISPS Code implementation for ships. Therefore, the heading of each subsection is taken directly from ISPS Code, section A/7.2.*

*When using this Voluntary self-assessment tool, the person conducting the voluntary self-assessment should consider SOLAS chapter XI-2, ISPS Code part A and part B, as applicable in accordance with national legislation, and the related guidance<sup>2</sup> developed by the Organization.*

The following section should be completed prior to completing the tool. It can be used by the CSO, SSO, recognized security organization (RSO) or others and will help to establish an overview of the security of the ship(s) the person completing the tool has responsibility for.

#### 1 Company and Ship Overview:

Name of Administration	
Name of company	
Name of ship	
IMO Ship identification number	
Name of CSO	
Name of SSO	
Number of ships operated by the company	
Number of ships for which the CSO is responsible	

#### 1.1 Manning of the ship:

##### 1.1.1 Total manning of the ship and security tasks fulfilled on board at the time of this assessment

Total number of crew members	
Number of crew with security duties	

<sup>2</sup> The related material, as on the date of issue of this circular, is listed in the appendix to the annex to MSC/Circ.1194 on Effective implementation of SOLAS chapter XI-2 and the ISPS Code.

1.1.2 In the last 12 months:

Number of crew members assigned on first time to the ship	
Number of different SSOs	
Number of changes in the security level	
Number of security incidents	
Number of breaches of security	

1.2 Security agreements and arrangements

Is the ship operating between port facilities covered by an alternative security agreement? (SOLAS regulation XI-2/11 and ISPS Code, paragraph B/4.26) If “Yes”, provide relevant details.	
Has the ship implemented any equivalent security arrangements allowed by the Administration? (SOLAS regulation XI-2/12.2). If “Yes”, provide relevant details.	
Is the ship operating under any temporary security measures? If “Yes”, have these been approved or authorized by the Administration? If “Yes”, provide relevant details. (SOLAS regulation XI-2/8.2 and MSC/Circ.1097, paragraphs 12 to 16)	

*Guidance for using the Voluntary self-assessment tool:*

- *Not all of the questions on the Voluntary self-assessment tool apply, or are relevant, to all types or sizes of ships. Some of these apply only in relation to specific types of ships. In such cases, the non-applicability of the particular question should be recorded in the ‘Comments’ box.*
- *When completing the Voluntary self-assessment tool, the ‘Comments’ box provides space for amplification where the ‘Other’ option is selected. However, experience has shown that it is also helpful to use ‘Comments’ box in cases where a ‘No’ answer has been recorded, thus giving an explanation of why not and details of any measures or procedures in place. Suggested actions should be recorded in the ‘Recommendations’ section of the Voluntary self-assessment-tool.*
- *For the questions which have multiple options (i.e. questions 2.3, 2.5, 4.5, 4.6, 4.7, 5.4, 5.9, 6.1, 6.5, 6.6, 8.1, 8.7, 9.4, 9.6 and 9.7), the ‘Yes/No/Other’ tick boxes should be replaced by a single column of boxes, which should be ticked as appropriate. This will be of benefit in cases where a ‘No’ answer may erroneously be taken as indicative of a non-compliance. Further explanation of any measures and procedures in place should be given in the ‘Comments’ box and any suggested actions should be recorded in the ‘Recommendations’ section of the Voluntary self-assessment tool.*

- *Ensure that one of the boxes is ticked for each question.*
- *If you ticked 'Yes', but the measures/procedures are not documented in the SSP, please enter a short description of them in the 'Comments' box.*
- *If you tick the 'No' response against Part A questions, please describe the reason in the 'Comments' box.*
- *If you ticked 'Other' against Part B questions, please enter a short description in the comment box. 'Other' could include instances where alternative agreements or equivalent arrangements have been implemented.*
- *Please tick 'Other' if the question is not applicable and add 'n/a' in the 'Comments' box.*
- *If alternative measures/procedures from those listed in the ISPS Code are used, please enter a short description in the 'Comments' box.*
- *If work to implement the measures outlined in Part B or any alternative solutions is still in progress, a work schedule should be entered into the 'Comments' box.*
- *If there is not enough space in the comment box, assessors should continue the answer on a separate page. The relevant question number should be added in these circumstances as a reference aid.*
- *'Recommendation' boxes should be used to record any identified deficiencies and how these could be mitigated.*
- *The 'Outcome of Voluntary Self-Assessment' box should be used to provide a brief record of the assessment process, and along with the comments in the 'Recommendation' boxes, form the basis for future security planning. A schedule for the implementation of recommendations should be included.*
