To our Esteemed Clients

Subject: ClassNK Academy Course in Manila

We are pleased to inform you that ClassNK will hold “ClassNK Academy” course this May in Manila.

The ClassNK Academy was established in 2009 to provide the maritime industry with a working knowledge of shipping and shipbuilding, specifically focusing on surveys, inspections and ship management. Academy course materials have been developed based on ClassNK’s extensive knowledge of maritime regulations, cutting-edge research, and the data and experience gained over our more than a century of classification and related activities.

More than 27,000 people from around the world have attended ClassNK Academy courses since the program’s founding in 2009, and our materials and lectures have been extremely well received in every country where the courses have been held. As part of our contribution to the maritime community in Philippines, we are pleased to offer this course in Manila to all participants.
