Subject

PSC Concentrated Inspection Campaign on "STCW HOURS OF REST"

No. TEC-0998
Date 7 August 2014

To whom it may concern

Please be informed that Paris MOU and Tokyo MOU issued a Press Release announcing the launch of following PSC Joint Concentrated Inspection Campaign (CIC) in 2014;

Items of concentrated inspection: STCW Chapter VIII "Standards regarding watchkeeping",

Section A-VIII/1 "Fitness for duty"

Campaign period : From 1 September to 30 November 2014

During this campaign period, not only "rest period provided to officers and ratings who are assigned duty of a watch etc." in STCW Section A-VIII/1, but also "Minimum Safe Manning" in SOLAS Reg. V/14 will be subjected to the concentrated inspections.

(See questionnaire form "CIC ON STCW HOURS OF REST" in the attached Press Release.)

Please note that Black Sea MOU and Indian Ocean MOU issued Press Releases announcing the same campaign during the same period will be held also in their jurisdictions.

## LAUNCH OF JOINT CONCENTRATED INSPECTION CAMPAIGN ON STCW HOURS OF REST

The Maritime Authorities of the Paris and the Tokyo Memoranda of Understanding (MoU) on Port State Control will launch a joint Concentrated Inspection Campaign (CIC) with the purpose to establish that watchkeeping personnel are meeting the requirements regarding hours of rest as per STCW 78 as amended (including the Manila amendments).

This inspection campaign will be held for three months, commencing from 1 September 2014 and ending on 30 November 2014.

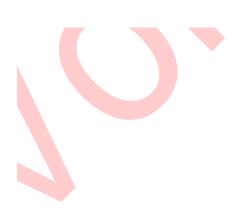

The deck and engine room watchkeepers' hours of rest will be verified in more detail for compliance with the mentioned scope of the CIC during a regular Port State Control inspection conducted under the regional ship selection criteria within the Paris and Tokyo MoU regions.

Port State Control Officers (PSCOs) will use a list of 10 selected items to establish that watchkeeping personnel are meeting the requirements regarding hours of rest, focusing attention on the Minimum Safe Manning Document (MSMD) and records of rest. In addition information will be gathered on the watch system, whether the MSMD requires an Engineer officer and whether the ship is designated UMS (Periodically Unattended Machinery Space). For this purpose, PSCOs will apply a questionnaire listing a number of items to be covered during the concentrated inspection campaign. The questionnaire has been annexed to this press release.

When deficiencies are found, actions by the port State may vary from recording a deficiency and instructing the master to rectify it within a certain period to detaining the ship until serious deficiencies have been rectified. In the case of detention, publication in the monthly detention lists of the Paris and Tokyo MoU web sites will take place.

It is expected that the Paris and Tokyo MoUs will carry out approximately 10,000 inspections during the CIC.

The results of the campaign will be analyzed and findings will be presented to the governing bodies of the MoUs for submission to the IMO.

#### Notes to editors: Paris MOU Tokyo MOU Regional Port State Control was initiated in 1982 The Memorandum of Understanding on Port when fourteen European countries agreed to State Control in the Asia-Pacific Region, known coordinate their port State inspection effort as the Tokyo MOU, was signed among eighteen under a voluntary agreement known as the Paris maritime Authorities in the region on 1 Memorandum of Understanding on Port State December 1993 and came into operation on 1 Control (Paris MOU). Currently 27 countries are April 1994. Currently, the Memorandum has 19 member of the Paris MOU. The European full members, namely: Australia, Canada, Chile, Commission, although not a signatory to the China, Fiji, Hong Kong (China), Indonesia, Paris MOU, is also a member of the Committee. Japan, Republic of Korea, Malaysia, the Marshall Islands, New Zealand, Papua New The Paris MoU is supported by a central Guinea, the Philippines, the Russian Federation, database THETIS hosted and operated by the Singapore, Thailand, Vanuatu and Vietnam. European Maritime Safety Agency in Lisbon. Inspection results are available for search and The Secretariat of the Memorandum is located in Tokyo, Japan. The PSC database system, the daily updating by MoU Members. Inspection results can be consulted on the Paris MoU Asia-Pacific Computerized Information System (APCIS), was established. The APCIS center is public website and are published on the Equasis located in Moscow, under the auspices of the public website. Ministry of Transport of the Russian Federation. The Secretariat of the MoU is provided by the Netherlands Ministry of Infrastructure and the Environment and located in The Hague.

Port State Control is a check on visiting foreign ships to verify their compliance with international rules on safety, pollution prevention and seafarers living and working conditions. It is a means of enforcing compliance in cases where the owner and flag State have failed in their responsibility to implement or ensure compliance. The port State can require defects to be put right, and detain the ship for this purpose if necessary. It is therefore also a port State's defence against visiting substandard shipping.

#### CONCENTRATED INSPECTION CAMPAIGN ON STCW HOURS OF REST 01/09/2014 to 30/11/2014

### **CIC ON STCW HOURS OF REST**

Insp	ection Authority					
Shij	o Name	IMO Number				
Date	e of Inspection	Inspection Port				
No.	AREA		,	YES	NO	N/A
1	STCW Section A- V					
2*		n accordance with MSMD or an equivalent docume Amend / Chapter V Reg. 14.	ent?			
3	Are there records of STCW Section A-VI	daily hours of rest for each watchkeeper?				
4	Have the records in STCW Section A-VI	Qu 3 been endorsed by an appropriate person?				
5	Are records related STCW Section A-VI	to hours of rest being recorded correctly?				
6		Ill watchkeeping personnel comply with STCW requirements of rest?	uirements,			
7**	Will the watchkeepe sufficient time to res STCW Regl/4 or ST		e have			
8	Is there evidence the periods if disturbed I STCW A-VIII/1.6.	at on-call seafarers <mark>rece</mark> ive adequate compensatory by call-outs to work?	y rest			
9	Do the records indic STCW Section A-VI	ate that a bridge lookout is being maintained?				
10	Was the ship detain	ed as a resu <mark>lt of this CIC?</mark>				
	These questions for	or information only:				
11		system on board including the master?				
12		uire an Engineer Officer?				
13	Is the ship designate					
14	If ship does <b>not</b> hav	e UMS notation, is there more than one certificated	engineer			1

Any question answered with a "NO" MUST be accompanied by a relevant deficiency on the Report of Inspection. Deficiency codes and convention references are given for each question where appropriate.

Questions marked either \* or \*\* answered with a "NO" may give clear grounds for a detention.

- \* If the actual crew number or composition is not brought in accordance with the minimum safe manning document or the flag State does not advise that the ship may sail, the ship may be considered for detention.
- \*\* If the PSCO determines that a watchkeeper due to take the first or relieving watch at the commencement of a voyage has not had, or will not have, the minimum rest periods required in STCW then the PSCO should consider detention of the vessel until such time as those rest periods have been taken.
