1.4 RO

- .1 An RO is an entity delegated authority with respect to statutory certification and services; and 1) if a Classification Society, has been assessed by the Administrator and found to comply with the Code for Recognized Organizations (RO Code); or 2) if an AR, has been assessed by the Administrator and found to substantially comply with the RO Code.
- .2 ROs, among other things, are authorized to verify compliance with the International Safety Management (ISM) Code and issue ISM Code Documents of Compliance and Safety Management Certificates on behalf of the Administrator.
