

Merchant Marine Circular

Panama Maritime Authority
General Directorate of Merchant Marine
Control and Compliance Department

MERCHANT MARINE CIRCULAR MMC-327

To: Master, Ship - owners, Operators, Company Security Officers, Ship Security Officers and Recognized Security Organizations (RSO's) of Panama Flagged Vessel.

Subject: Security Measures sailing in the Gulf of Guinea (GoG).

Reference: Law No. 38 June 4th, 1995 UNCLOS 1982.
MMC-228 Use of Armed Security Personnel on board Panama Flagged Vessel (**online application**).
MMC-238 Ship Protection Measures for Vessels transiting High Risk Areas.
MMC-245 Authorized Private Maritime Security Companies (PMSC) transiting High Risk Areas (**online application**).

-
1. The Panama Maritime Authority encourages all Panamanian flagged vessels transiting the Gulf of Guinea, to increase the security measures on board and to comply with any security regulations recommended, in territorial waters, by the Coastal and Port Authorities; taking into consideration the recent piracy attacks occurred in the region (hijacking, kidnapping and armed robbery) and comply with the [Best Management Practices \(BMP\) West Africa including Gulf of Guinea](#).
 2. The Panama Maritime Authority further encourages the implementation of the necessary security measures established by this Administration through anti-piracy Merchant Marine Circulars, in particular MMC-238.
 3. The use of Private Maritime Security Companies (PMSC) should not be considered as an alternative to the Best Management Practices (BMP) or other protective measures. The use of PMSC is an exclusive decision of the Ship-owner or Operator, and is only recommended outside the territorial waters of the coastal countries of the Gulf of Guinea. In cases where the use of PMSC is permitted within the territorial waters of a country, the shipowner or ship operator must follow the national regulations applicable by the country in this regard.

Merchant Marine Circular

4. This Administration recognizes that an essential part of preventing, deterring and suppressing attacks is prompt reporting to the appropriate authorities and organizations, both during and post-incident.
