

# **A First Survey stipulated in Retroactive Requirements**

## **Amended Guidance**

Guidance for the Survey and Construction of Steel Ships Part B  
Guidance for High Speed Craft  
Guidance for the Survey and Construction of Passenger Ships

## **Reason for Amendment**

With respect to the requirements which are applied retroactively referenced by the SOLAS Convention, "First Survey" on and after a specific date as the due date to be conformed to is prescribed. However, because the definition of this "First Survey" had not been clear, IACS adopted Unified Interpretation (UI) SC 171 to clarify this matter in 2002.

Thereafter, IACS adopted UI SC 171 (Rev.2) in August 2008 with a view to generalizing the application of the interpretation.

Accordingly, all relevant requirements have been amended in accordance with IACS UI SC171 (Rev.2). In addition, the Occasional Survey requirements have been organized.

## **Outline of Amendment**

- (1) Interpretations for the meanings of "first survey" and "first scheduled dry docking" given in the Occasional Survey requirements have been provided.
- (2) Those Occasional Survey requirements which had passed their confirmation deadline have been deleted.
