

Survey Requirement for Liquefied Gas Carriers

Amended Rules

Rules for the Survey and Construction of Steel Ships Part B

Reason for Amendment

IACS Unified Requirement Z16, related to the surveys of cargo installations on ships carrying liquefied gases in bulk, was partially revised in order to clarify the application of non-destructive testing of independent cargo tanks of Type C at special surveys.

Accordingly, all relevant requirements have been amended in accordance with IACS Unified Requirement Z16 (Rev.3).

Outline of Amendment

To make it clear that the non-destructive testing of independent cargo tanks of Type C at special surveys cannot be dispensed with totally.
