

The Emergency Escape Breathing Devices

Amended Rules

Rules for the Survey and Construction of Steel Ships Part R

Reason for Amendment

With respect to the Emergency Escape Breathing Devices provided as a means of escape from machinery spaces, it is clearly required by Section 13.4.4-2 that the number and location of these devices be indicated on the Fire Control Plan required by Section 15.2.2.

On the other hand, with respect to the Emergency Escape Breathing Devices provided as a means of escape from Control Stations, Accommodation and Service Spaces, there is no regulation to indicate the number and location of these devices on the Fire Control Plan required by Section 15.2.2.

Accordingly, relevant requirements has been amended to clarify that it is necessary to indicate the number and location of Emergency Escape Breathing Devices provided as a means of escape from Control Stations, Accommodation and Service Spaces on Fire Control Plans.

Outline of Amendment

To specify that the number and location of Emergency Escape Breathing Devices provided as a means of escape from Control Stations, Accommodation and Service Spaces indicated on Fire Control Plans.
