

# **The Shop Tests for Exhaust Gas Turboblenders**

## **Amended Rules and Guidance**

Rules for the Survey and Construction of Steel Ships Part D  
Guidance for the Survey and Construction of Steel Ships Part D

## **Reason for Amendment**

The test requirements for exhaust gas turboblower manufacturing plants approved by NK for mass production are stipulated in accordance with the RULES FOR APPROVAL OF MANUFACTURERS AND SERVICE SUPPLIERS which is based on IACS UR M23. In addition, the test requirements for exhaust gas turboblower manufacturing plants which are not approved by NK for mass production are stipulated in accordance with the RULES FOR THE SURVEY AND CONSTRUCTION OF STEEL SHIPS Part D.

However, there exist some discrepancies between the requirements found in the RULES FOR APPROVAL OF MANUFACTURERS AND SERVICE SUPPLIERS and those in the RULES FOR THE SURVEY AND CONSTRUCTION OF STEEL SHIPS Part D.

Therefore, relevant requirements have been amended so as to make the test requirements for exhaust gas turboblower manufacturing plants found in the RULES FOR APPROVAL OF MANUFACTURERS AND SERVICE SUPPLIERS consistent with those found in the RULES FOR THE SURVEY AND CONSTRUCTION OF STEEL SHIPS Part D.

## **Outline of Amendment**

Relevant requirements related to the test requirements for exhaust gas turboblower manufacturing plants have been amended.
