

Amendment on 20 June 2025

Resolved by Technical Committee on 29 January 2025

Name of Coating Inspector Qualification and Name of Material Safety Data Sheet

Object of Amendment

Rules for the Survey and Construction of Steel Ships Part B
Guidance for the Survey and Construction of Steel Ships Part B
Guidance for the Survey and Construction of Steel Ships Part C
Guidance for the Survey and Construction of Passenger Ships

Reason for Amendment

Regulation II-1/3-2 and II-1/3-11 of SOLAS stipulate performance standards for protective coatings as Resolutions MSC.215(82) and MSC.288(87). These resolutions require NACE Coating Inspector Level 2 as one of the coating inspector qualifications related to performance standards for protective coatings. The Society has already incorporated these requirements into Part B of its Rules and Guidance for the Survey and Construction of Steel Ships.

In January 2021, National Association of Corrosion Engineers (NACE) International, which conducts certification, changed its name to the Association for Materials Protection and Performance (AMPP). As a result, the name of the coating inspector qualification was changed to AMPP Certified Coatings Inspector.

At the 108th session of the IMO Maritime Safety Committee (MSC108) in May 2024, amendments changing the name of the coating inspector qualification were adopted as Resolutions MSC.557(108) and MSC.558(108).

In October 2024, IACS Unified Interpretation (UI) SC259 (Rev.1 Corr.2) was adopted to amend the name of the coating inspector qualification and to add “Safety Data Sheet” (SDS) as another name for the Material Safety Data Sheet (MSDS) recommended to be included in coating technical files.

Accordingly, relevant requirements are amended based on MSC.557(108), MSC.558(108) and UI SC259 (Rev.1 Corr.2).

Outline of Amendment

- (1) Amends requirements related to coating inspector qualifications.
- (2) Adds Safety Data Sheet (SDS) as another name for Material Safety Data Sheet (MSDS).

Effective Date and Application

Effective date of this amendment is 1 January 2026.

ID: DX24-12

Amended	Original	Remarks
EFFECTIVE DATE AND APPLICATION (A)		
1. The effective date of the amendments is 1 January 2026.		
EFFECTIVE DATE AND APPLICATION (B)		
1. The effective date of the amendments is 1 January 2026. 2. For ships subject to Part C of the Guidance for the Survey and Construction of Steel Ships prior to its comprehensive revision by Notice No.47 on 1 July 2022 (hereinafter referred to as “old Part C of the Guidance”), this amendment also applies to Appendix C6, old Part C of the Guidance.
